\$AEE - an inquiry of feasibility from a member in our private discord

10 @BabyYoda How does AEE look for long hold here?

\$AEE
Sorry Yodes, doesn't look good for the future - is this company on it's way to going out of business?

if you zoom out to a 12 mos look, this ticker has been in a downward channel, bouncing off the upper and lower bands but no mistake (overall) **DOWNWARD**

Look particularly at the 150MA (shown in thicker teal) and the constant downward motion it's had ???

Stoch. FULL = DOWN
Chande Momentum = DOWN
Volume really only above avg. on Friday
Don't be fooled entirely by the green day on Friday, the overall OI Premium is bearish on the ticker

\$XLU still bad, and downward of which this ticker is a 2.02% constituent

Look for it to continue a bit down then reverse up again a bit then reverse yet again where we show the arrow

In our eyes, just avoid or pass
If you're in the play, take some measures, before, as they say, "someone does it for you"
